2019 CATALOGUE EICMA PREVIEW

RIDE THE CONNECTION

For those of you with a passion for motorcycles written in your DNA, experience the thrill of speed and the wind, the rush of a gear change, the adrenaline of movement and leaning and the planning of adventures on long trips, **INTERPHONE** dedicates communication devices and functional accessories to your search for performance. You've tried it many times: communicating in motion is an essential need. **INTERPHONE** research presents an authentic upgrade for freedom in intercommunication and in Hi-Tech sound quality.

INTERCOMMS

Single and couple devices compatible with all helmets, multi-user connections, an increasingly broad extension range, ease of use and high performance batteries with rapid charging. Innovative companions essential on your trips, long or short, to give you the freedom to stay connected: with your travel companions, with your music or your road. Simple High-Tech functions, for those with their heart in the engine and a head for technology and safety.

Twins
CONNECTED IN MOVEMENT

NEW!

SMART DUO is the ideal solution for all those who often travel with a pillion. Whether going to work, or taking the children to school, or enjoying a ride on the weekend. SMART DUO offers two independent devices which can be connected, respectively, to the phones or Bluetooth® audio devices of each passenger. And, at the same time, be connected to each other, in intercom mode. Both devices are universal. Very easy to pair. Both, to the phone, and to each other. They do not require any kind of accessory for fixing device inside your helmets.

STAY IN TOUCH

GET THE MOST FROM YOUR INTERPHONE

On a motorcycle, on a scooter, for free time, while practising sport, alone or in company... being connected is a constant need. Interphone turns the Stay in Touch concept designing **accessories** able to improve and **enhance interphone functions**. A line dedicated to Tour, Sport, Link and Urban, a series of products able to increase the performance of the devices, expanding the way they are used and the opportunities to communicate.

Audio kit to fully enjoy the Hi-Fi quality of intercoms, microphones designed to exclude external noise and to enjoy conversations without interference, earphones for use without a helmet that ensure the intercom is an excellent technological companion when practising outdoor sports and on the move.

ACCESSORIES

CASES AND

SMARTPHONE WITH YOU IN COMPLETE SAFETY

The freedom to stay in contact is represented by a line of **supports**, dedicated or universal, to bring the smartphone into the saddle, in complete safety. The cases and brackets meet a variety of needs, aesthetic, practical and protection-related. Ease of use and technology come together in **universal or dedicated solutions** allowing everyone to find the right product for their device.

MOUNTS

On motorbikes or scooters there are many ways to mount your smartphone, the cases are in fact compatible with all the Cellularline optional brackets allowing use of the phone on any two-wheeled vehicle. On a scooter, for example, it is possible to use the optional rear-view mirror bracket (SSP) while a fixing bracket for tubular handlebars is included in each pack.
