MILESTONES

1947

The first AGV motorcycle safety helmet: leather and skin to start with.

1956

The first fiberglass jet helmet. The legendary Renzo Pasolini was still using one in the early Seventies.

1960

AGV became synonymous with safety for VIPs too. Marcello Mastroianni, Formula One driver in the Sixties film "A place for lovers" by De Sica.

1969

The first full-face helmet worn in an Italian race was an AGV model, worn by Alberto Pagani. Then Ago started using one.

1971-1973

AGV entered Formula 1 in the early seventies with Emerson Fittipaldi and Niki Lauda.

1977

AGV starts the "Mobile Clinic" to treat riders at the site of motorcycle events in case of injury.

1980

Randy Mamola sponsored by AGV.

1996

Valentino Rossi has been racing in an AGV since 1996, the year of his first 125 World Championship race and first victory.

2011

A revolution in helmet design that achieves tangible and measurable improvements in: protection, comfort, field of vision, aerodynamics.

2016

For Valentino and AGV, the 2016 season marks a special milestone: the most representative rider of the Italian motorcycling world has been racing wearing AGV helmets for 20 years.

2018

The world's first SportModular helmet is born: the performance of a full face, the comfort of a modular. Entirely built in Carbon Fiber.

2020

The Legends range is complete. The full-face, jet and off-road helmets that have made motorcycling history, reinvented with modern materials and comforts to meet all every-day challenges.

1954

The birth of the modern Italian crash helmet made of fiberglass.

1958

AGV became the first company to use a motorcycle race for its advertising. Amisano had banners hung around the most photographed bends.

1967

The first contract with the motorcycling's World Champion Giacomo Agostini.

1972

The Imola 200 miles. High speeds from the brute power of 750cc. The best riders in the world. Short races to increase the pace.

1976-1978

Barry Sheene and Kenny Roberts are sponsored by AGV.

1993

Wayne Rainey sponsored by AGV.

2007

AGV becomes part of Dainese. Two leading companies in the safety market together.

2014

The Pista GP is awarded with 5 Sharp Stars and confirmed as one of the safest helmets in the world.

2015

The AGV Extreme Standards.

2017

AGV celebrates its 70th anniversary

2019

The AGV Pista GP RR racing helmet received new FIM homologation, which allows it to be used in official races.

Everything began immediately after the Second World War when AGV in 1946 started out as manufacturer of leather seats and bicycle saddles. It was in 1947 that Amisano Gino from Valenza, the historical founder (hence the name AGV), entered into the motorcycle helmets world; an important step which gained since the beginning unprecedented commercial success together with the chance of being part of sport competitions. In 1969 AGV developed the first fiberglass full-face helmet.

Since the beginning, AGV's history has been directly linked to the one of riders who have made the motorcycle history: Giacomo Agostini, Barry Sheene, Kenny Roberts, Angel Nieto, Marco Lucchinelli, Niki Lauda, Nelson Piquet, Emerson

Fittipaldi, Randy Mamola, Loris Capirossi, Max Biaggi, Valentino Rossi and many others. The Pista GP was created in 2012 as the first of a new generation of helmets from the AGV Extreme Standards project. This process revolutionised helmet design and test methods and, from the outset, the clear aim was to significantly and demonstrably improve rider protection, ergonomics and comfort. AGV has never doubted its mission to protect riders and has never wavered in its commitment to Innovation and Research & Development to let riders enjoy their passion to the full in complete safety.

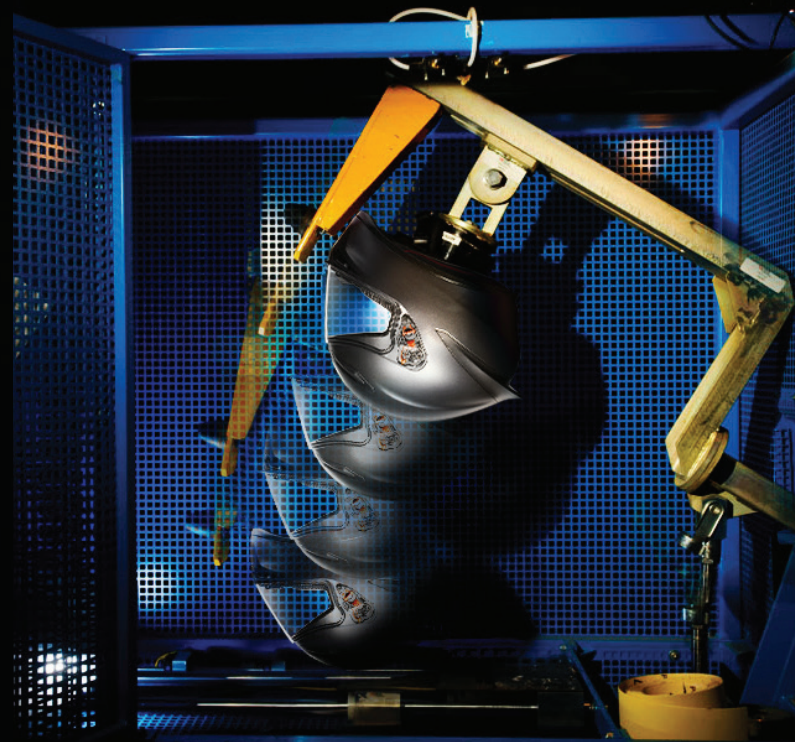

From the track to the road, for the Champions of every day.

EXTREME SAFETY

Every AGV helmet is made so its wearer can express his or her full potential. Extreme protection, extended visibility, and aerodynamic shapes for superior performance: from the track to the road, everything is designed to increase both riding pleasure and control of the surrounding elements.

This is why we created Extreme Safety, a development protocol that enables us to produce helmets that exceed the latest standards in every way that counts, on both the road and track.

IMPACT PROTECTION

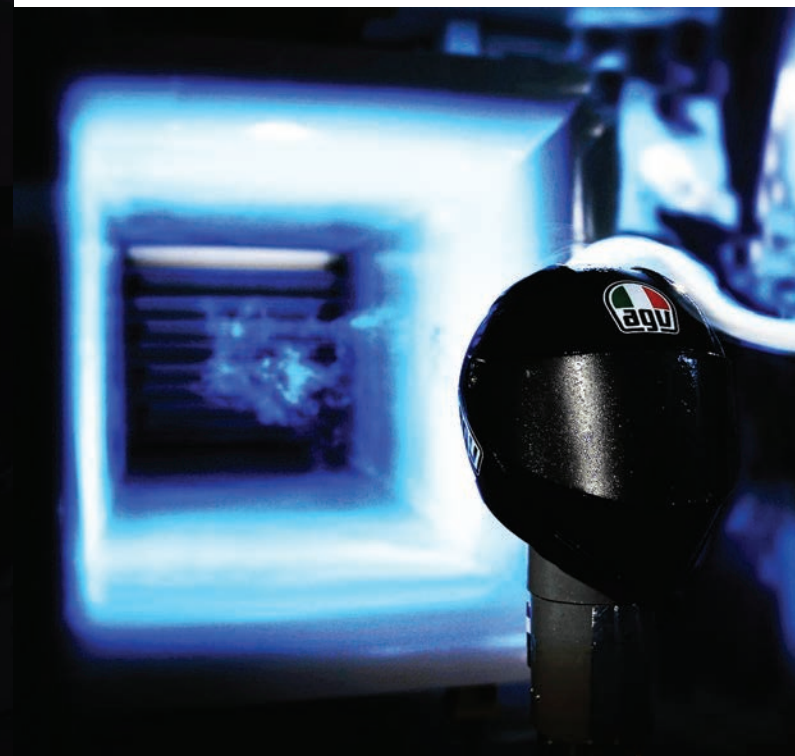

Exceeding standards: AGV helmets are tested at up to 15 points of impact, including the visor. This is a total of over 150% more points than required by the standard, at a higher impact speed.

MORE THAN ANY OTHER HELMET.

ULTRAVISION

The extended panoramic visual field matches the peripheral and vertical vision of the human eye. 190° of extreme horizontal visibility and 85° of vertical visibility means seeing the road, corners, obstacles, and your adversaries like never before.

BEFORE ANYONE ELSE.

DESIGN TO PERFORM

Perfectly balancing all the main components of the helmet leads to superior performance in aerodynamics, comfort, safety, stability at high speeds, lightness, and reduced dynamic weight. The result is a helmet that is beautiful to wear and use.

BORN TO WIN.

ARK

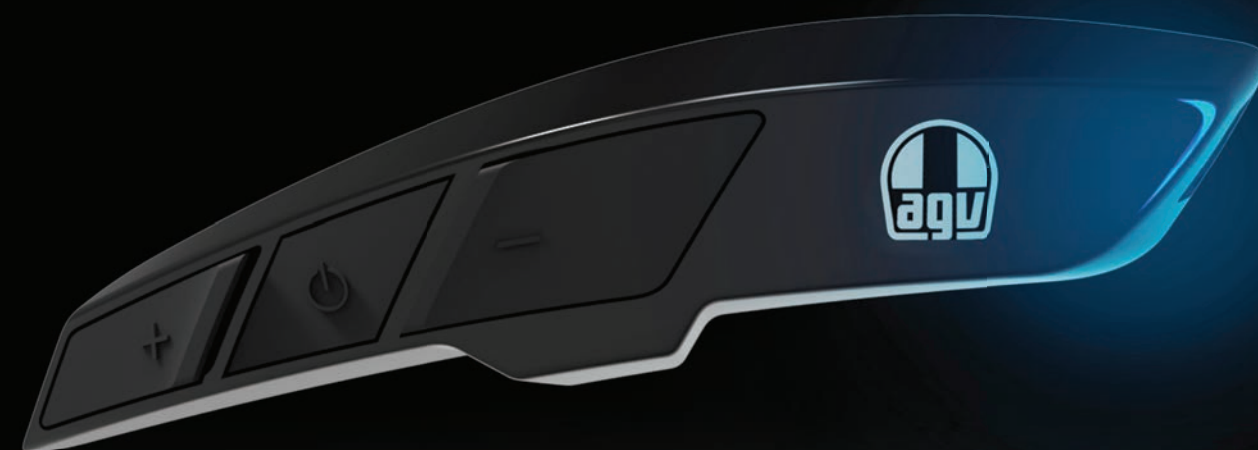

- Bluetooth v4.1
- Bluetooth® Intercom up to 1.6 kilometers / 1.0 mile
- Four-way Intercom
- Group Intercom™
- Universal Intercom™
- Built-in FM radio tuner with a station scan and save function
- Music sharing
- Audio Overlay™
- Advanced Noise Control™
- Voice prompts
- Utility App for iPhone and Android phones
- Quick charging
- Optional AGV remote control support (not included)
- SENA firmware upgradeable

ARK, STAY CONNECTED EVERYWHERE

developed with **SENA**

AGV ARK is here and ready to change your ride. Simultaneous communication between up to 4 riders, with only the click of a button. Designed specifically for AGV helmets, it allows to talk to riding companions up to 1.6 km (1.0 mile) away, take calls, listen to music and more.

CRYSTAL CLEAR AUDIO AND ADVANCED NOISE CONTROL™

Even at high speed, listening to music or GPS navigation from smartphones is simple, thanks to the upgraded speakers in the ARK headset. Whether talking over the intercom or taking a phone call, Sena's Advanced Noise Control™ and the superior quietness of AGV helmets ensure ambient noise doesn't interfere with incoming and outgoing audio.

ARK is available for Sportmodular, AX9, K5 S, K6.

AGV UNIQUE DESIGN AND VERSATILITY

ARK intercom has a dynamic and streamlined design, engineered for a perfect integration with Sportmodular, AX9, K6 and K5 S AGV helmets without interfering with their aesthetic and aerodynamic shape. Light and compact, it can be applied on the helmet simply using the AGV Intercom Adapter.

THE STYLE OF A CHAMPION, THE PERFORMANCE OF A LEGEND.

AGV CELEBRATES THE INFINITE TALENT OF THE DOCTOR.

RACING

PISTA GP RR

is an **exact replica** of the AGV helmet used in races by professional world **championship riders**. It has therefore received **FIM homologation**, which certifies the highest possible level of protection, even against any dangerous twisting of the head.

EVERY DETAIL IS DESIGNED TO ENSURE ULTIMATE PERFORMANCE.

The Extreme Carbon shell in 100% carbon fiber guarantees extraordinary resistance and lightness, which make it effortless to wear. Its shape and the metal air vents have been researched in the wind tunnel and tested by AGV athletes to ensure perfect ventilation inside the helmet. These combine with the innovative profile of the rear PRO Spoiler to guarantee the best possible aerodynamic penetration and maximum stability at high

speeds. Boasting 5 mm thickness, the optical class 1 Ultravision visor is an integral part of protection that enables 190° panoramic vision. This means the rider sees the track, adversaries, and obstacles more clearly, before anyone else. The exclusive 360° Adaptive Fit system allows for complete customization of the interior, giving the rider the possibility to select the ideal thickness for the upper part of the head, nape, and cheeks.

PISTA GP RR

FULL FACE 360° Adaptive Fit PINLOCK 100% MAX VISION 120

NEW FUTURO CARBONIO FORGIATO/ELETTRO IRIIDIUM

SPECIAL EDITION 216031D9MY 008

The helmet created for MotoGP™ is now available to every rider. Pista GP RR is an exact replica of the AGV helmet used in races by professional world championship riders. It has therefore received FIM homologation, which certifies the highest possible level of protection, even against any dangerous twisting of the head.

Homologations available: FIM, ECE 2205/DOT, NBR, JIS (ASIAN FIT), ECE 2205 (ASIAN FIT), CCC (ASIAN FIT) Weight (ECE 2205/DOT): 1.450 g (+/- 50g) (in first shell size)	Shell size:	1		2		3		4

FEATURES

TECHNICAL FEATURES

SHELL

- 100% Carbon fiber
- 4 shell sizes
- 5-density EPS developed in 4 sizes
- Shell and EPS structure designed to minimize rotational accelerations (FIM homologated)
- Collarbone safe profile

VENTILATION

- 5 front vents
- 2 rear extractors
- Metal air vents and extractors

AERODYNAMICS

- Detachable PRO Spoiler
- Race suit fitment

INTERIORS

- Cheek pads: Shalimar fabric for soft and stable fit even at high speed
- Crown pad: elastic and breathable microfiber
- Neck roll: breathable fabric with elastic and waterproof inserts
- Sanitized: antibacterial protection
- 2Dry: instant sweat absorption
- Microsense: premium skin comfort
- 360° Adaptive fit
- 3-piece adaptable crown pad fit

- No stitches in sensitive areas
- Embracing neck roll profile
- Cheek pads safety release system
- All parts are easily removable and washable
- Removable nose guard
- Removable wind protector

VISOR

- 190° horizontal field of view
- 85° vertical field of view
- Up to 5mm thickness
- Optic class 1
- 100% Max Vision Pinlock (120) included
- Anti-scratch
- Metal visor mechanism

- Patented Extra Quick Release System
- Patented visor lock system
- Micro-opening system

RETENTION SYSTEM

- Titanium Double D

ACCESSORIES INCLUDED

- Interiors customization kit: top crown pad, rear crown pad, cheek pads
- Hydration system
- Elettro Iridium visor (only for Special Edition Futuro)
- Smoke visor (only for Mono Iridium Carbon)
- Tear-off kit
- Vents covers
- Earplugs

PINLOCK 120

SIC58

REPLICA

216121A1HY 008

A premium sport-riding helmet with a carbon-aramid-fiberglass shell, the Corsa R offers a long list of amazing features for the most experienced and demanding riders. Construction of the new interior results in a smooth, pressure-free fit, and the patented reversible crown pad features two distinct fabrics, allowing riders to select between warmer and cooler side depending on conditions or personal preference. Aerodynamics are enhanced thanks to a wind-tunnel tested spoiler, and the Integrated Ventilation System (IVS) places intake ports at areas of maximum flow.

Homologations available: ECE 2205, ECE 2205/DOT, NBR, JIS (ASIAN FIT), ECE 2205 (ASIAN FIT)

An aerial, black and white photograph of a winding road that snakes through a hilly, vegetated landscape. The road is light-colored and contrasts with the darker, textured terrain. The hills are covered in dense vegetation, and the overall scene is captured from a high angle, emphasizing the curve of the road.

SPORT

K6

Versatility defines the K6. Suitable for every type of riding and all riding surfaces, it incorporates the best characteristics from the sport and touring worlds and is ideal for taking on any two-wheeled challenge, from leaning into the turns on winding roads to long-range trips, by way of everyday city rides.

Its carbon and aramid fiber shell ensures the very best protective performance in its category and makes it the lightest full-face road helmet in the world. The aerodynamic shapes are optimized for excellent stability and air penetration in any riding position, making this solution perfect for riders who want the freedom to select his or her own riding style,

without compromise. The premium interiors are waterproof and ventilated. They are designed so riders can cover infinite miles in total comfort with only the road ahead to focus on. The air vents on the forehead and chinguard are designed for easy adjustment even when wearing gloves, which means the rider has the right amount of ventilation all the time.

JOAN

TECHNICAL FEATURES

SHELL

- Carbon-Aramid fiber
- 4 shell sizes
- 5-density EPS developed in 4 sizes
- Collarbone safe profile

VENTILATION

- 5 front vents
- 1 wide rear extractor
- Adjustable air vents

AERODYNAMICS

- Optimized for all riding positions
- Shell shape designed to reduce turbulence

INTERIORS

- Cheek pads: Ritmo fabric to facilitate putting on/taking off the helmet, with cheekbone area in Shalimar fabric to ensure stability at high speed
- Crown pad: Shalimar fabric for a soft and gentle touch
- Neck roll: Ritmo fabric and synthetic leather with high abrasion resistance and water-resistant properties
- Sanitized®: antibacterial protection
- 2Dry: instant sweat absorption
- Microsense: premium skin comfort
- Embracing neck roll profile
- Fit especially designed to allow wearing glasses

- Cheek pads safety release system
- Reflective inserts
- All parts are easily removable and washable
- Removable nose guard
- Ready for AGV ARK communication system

VISOR

MULTI
210041A2MY 050

AGV's latest version of this premium sport helmet now features a new construction for the inner liner, designed with high-performance fabrics and with no stitching in sensitive areas, making for an extremely comfortable fit. The lightweight shell is made from a carbon-fiberglass mix, while stability and aerodynamic performance are maximized thanks to an incorporated spoiler. The Integrated Ventilation System (IVS) has vents that are hollowed into the shell, and there's also an internal drop-down sun visor, a removable nose guard and a new wind protector that keeps noise to a minimum.

Homologations available: ECE 2205, ECE 2205/DOT, NBR, JIS (ASIAN FIT), ECE 2205 (ASIAN FIT), CCC (ASIAN FIT)

VR46 SKY RACING TEAM
BLACK/RED

REPLICA
210281A110 008

K1 is the AGV sport helmet for everyday riding challenges. Born from the AGV racing technology, ready for every road experience. The aerodynamic shape, racing-developed front air vents and wind-tunnel-tested spoiler maximize performances and give stability at higher speed. The anti-scratch visor with Pinlock® anti fog allows a wider vertical and lateral field of vision. Comfort is no-compromise with Dry-Comfort soft and removable interiors. Competition is a matter of facts.

Homologations available: ECE 2205, ECE 2205/DOT, NBR, JIS (ASIAN FIT), ECE 2205 (ASIAN FIT), SNI (ASIAN FIT), CCC (ASIAN FIT)
Weight (ECE 2205): 1.500 g (+/- 50g) (in first shell size)

NEW LAYER CARBON/RED/WHITE

MULTI 211201A2IY 012

The world's first SportModular helmet: the performance of a full face helmet together with the comfort of a modular. Entirely built in Carbon Fiber (shell and chin), this specific structure achieves the same protection performance of MotoGP's Pista GP R in an incredibly light weight construction, combining the highest levels of comfort and safety. Designed to offer 190° horizontal view as the human eye capability, SportModular has been conceived in the wind tunnel for superior quietness, aero stability and ventilation.

Homologations available: ECE 2205, ECE 2205/DOT, JIS (ASIAN FIT), ECE 2205 (ASIAN FIT), CCC (ASIAN FIT)
Weight (ECE 2205): 1.295 g (+/- 50g) (in first shell size)

TECHNICAL FEATURES

SHELL

- 100% Carbon fiber
- 100% Carbon fiber chinguard
- 3 shell sizes
- 5-density EPS developed in 4 sizes
- Chin guard opening system designed to prevent accidental opening
- Collarbone safe profile

VENTILATION

- 2 front vents
- 1 rear extractor
- Adjustable air vents
- Adjustable rear extractors

AERODYNAMICS

- Adjustable rear spoiler
- Shell shape designed to maximize aerodynamic performance and to have 0 dynamic weight at 130km/h (80 mph)

INTERIORS

- Cheek pads: fresh and fluid Ritmo fabric
- Crown pad: Shalimar fabric (warmer side) for a soft and gentle touch and Ritmo fabric (cooler side) for a fresh and fluid fit
- Neck roll: Shalimar and Nabuk fabric with water resistant treatment
- Sanitized®: antibacterial protection
- 2Dry: instant sweat absorption

- Microsense: premium skin comfort
- Fit especially designed to allow wearing glasses
- Patented double face crown pad
- All parts are easily removable and washable
- Removable nose guard
- Removable wind protector
- Ready for AGV ARK communication system

VISOR

- 190° horizontal field of view
- 85° vertical field of view
- Optic class 1
- 100% Max Vision Pinlock (120) included

- Anti-scratch
- Metal visor mechanism
- Multistep visor mechanism
- Patented Extra Quick Release System
- Patented visor lock system
- Micro-opening system
- Integrated anti-scratch sun visor, removable without using tools

RETENTION SYSTEM

- Titanium Double D

ACCESSORIES INCLUDED

SIBERIA
MATT BLACK/YELLOW FLUO

MULTI
217631A2LY 012

Lightness, comfort and adaptability reach the highest technological level in the AGV AX9. Its superior modularity allows 4 different configurations, simply removing the redesigned peak and the ultra-panoramic visor. The lightweight construction of the Carbon+Aramid+Glass fiber shell provides AGV highest safety standards, while premium interiors are water resistant and extremely comfortable. Aerodynamics and ventilation reach a new standard thanks to new extractors and the new adjustable chin guard port that can direct internal air flows where the rider need.

Homologations available: ECE 2205, ECE 2205/DOT, NBR, CCC

Weight (ECE 2205): 1.445 g (+/- 50g) (in first shell size)
1.365 g (+/- 50g) (mono carbon)

COMPACT ST

FLIP UP
PINLOCK

DETROIT
YELLOW FLUO/BLACK

MULTI
211021A2HY 015

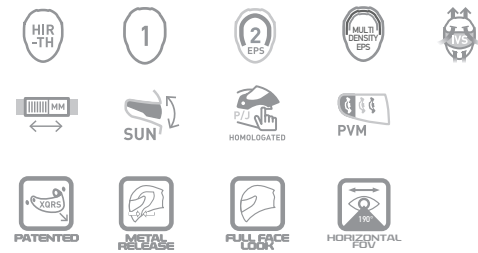

Taking the modular-helmet concept to the next level, the Compact ST has been homologated in both the closed and open positions, and its compact design when in the latter configuration means aerodynamic performance is surprisingly capable. There's an internal drop-down sun visor, and the new interior is designed for maximum comfort, with high-tech fabrics and carefully positioned stitching. The ultimate in adaptability, this helmet is equally appropriate for city riding and out of town.

Homologations available: ECE 2205, DOT, NBR

Weight (ECE 2205): 1.780 g (+/- 50g) (in first shell size)

K-5 JET

OPEN FACE

PINLOCK[®] READY

ROSSI MISANO 2015

TOP

211131A0G0 008

By packaging most of the top details of the popular K-5 in an open-face version, AGV has created a high-performance, versatile helmet that's equally at home for city riding or touring. The carbon-fiberglass shell features an integrated spoiler for maximum stability and aero performance, while the anti-scratch, Pinlock[®]-ready shield extends below the chin and utilizes an effective new mechanism called Visor Magnetic System (VMS).

Homologations available: ECE 2205, JIS (ASIAN FIT), ECE 2205 (ASIAN FIT), CCC (ASIAN FIT) Weight (ECE 2205): 1.350 g (+/- 50g) (in first shell size)	Shell size:	1			2

76 AX-8 EVO

OFF ROAD

AX-8 EVO

FULL FACE

NEW WHITE

MONO
207511A4No 001

AGV's flagship off-road helmet, the super-lightweight AX-8 EVO has a carbon-aramid-fiberglass shell with a shape that's designed to minimize the risk of injuries caused by force being transferred to the collarbone, and it's optimized for use with neck braces. The bottom of the chin guard has a rubber cushion for impact absorption, and the nose guard is removable.

Homologations available: ECE 2205, ECE 2205/DOT, NBR, CCC

Weight (ECE 2205): 1.210 g (+/- 50g) (in first shell size)

THE ALLURE OF LEGENDS

We know these legends well because since 1947 we have witnessed their birth and shared in their rise to success. For this reason we have created a collection of safe, modern helmets whose authentic shapes and graphics evoke the extraordinary achievements of those men who were born to win.

CASCHI DA CORSA DAL 1947

X101

The direct descendant of the AGVs that took adventurous drivers through the toughest off-road competitions from Paris to Dakar. Distinctive and legendary style, with modern materials and comforts to meet every day's challenges.

Paris - Barcelone - Alger - Ghardaia - El Golea - In Salah - Tamanrasset - Ait - Aibre Thierry Sabine - Dirkou - Agadez - Tahoua - Niamey - Gao - Tombouctou - Nema - Tidjikja - Atar - Nouadhibou - Richard Toll - Saint Louis - Dakar

DAKAR 87

MULTI

217701A2N0 001

Full-face helmet inspired by the historic models used in the Dakar rallies of the 1970s and 1980s, with leather interior and removable peak.

SHELL

- Fiberglass
- 3 shell sizes
- EPS developed in 3 sizes

CASCHI DA CORSA DAL 1947

X3000

Historic shapes and colors meet modern design. The Legends helmets immortalize riders and achievements that will never be forgotten. Comfort, protection and ventilation are key elements of these helmets that meet today's highest standards.

The X3000 carries Agostini's signature and includes the contoured chin piece just as he liked it so that he could lean right up against the gas tank. It also features a dual button visor that can be opened with the left hand alone.

AGO 1

LIMITED EDITION

210011A910 001

The iconic piece that gave birth to the AGV logo: the tricolor Agostini helmet, seen from behind, just as his rivals saw it. Same shape, same color scheme, the same leather bag used to transport it, modern technology. Timeless allure in just 3000 limited pieces.

Ago in one of his many Imola victories.

BARRY SHEENE

LIMITED EDITION

210011A910 003

Beyond his talent, over his world titles, more than his spectacular races. An athlete becomes history because of the passion he infuses in others, the emotions he can give, his eternal winning attitude. We celebrate the unrepeatable Barry Sheene with this unique helmet. The lucky number 7, the inseparable Duffy Duck, his very signature on the back. The legend lives on.

Barry rode with great style, getting his knee down early. Behind the visor, he always seemed to be smiling.

X70

AGV invented the fibre jet helmet back in 1954. Over time it has evolved and been superseded by the safer full-face helmet, though only in the racing world. But it never went out of fashion. X70 re-embodies the eternal allure of the original's shape, with modern protection and comfort features.

FEATURES

	Shell in Carbon fibre		4 EPS
	Shell in CAAF (Carbon-Aramid-Fiberglass)		Multi Density EPS
	Shell in CAF (Carbon-Fiberglass)		IVS (Integrated Ventilation System) with channels hollowed directly in the shell
	Shell in CAA (Carbon-Aramid)		Fabrics in Dry Comfort
	Shell in fibreglass ACF (Advanced Composite Fibre)		Fabrics in Dri-Lex®
	Shell in HIR-TH (high resistant thermoplastic) resin		Double D retention system
	4 shell sizes		Titanium Double D retention system
	3 shell sizes		Micro-metric adjustment buckle
	2 shell sizes		Easy flip-up mechanism
	1 shell size		PVM (Personalized Visor Mechanism)
	2 EPS		Tear-Off included
	3 EPS		Sun Visor

ICONS

FEATURES

	The visor is in optical class 1 (meaning the very best optical quality).		Rear air extractors can be opened and closed.
	The visor is 3.3 mm thick thus providing excellent protection in the event of an accident.		Central air vent for optimal air flow.
	The visor is 4 mm thick thus providing excellent protection in the event of an accident.		The visor can be removed and the helmet used with an off-road mask.
	The visor is up to 5 mm thick thus providing excellent protection in the event of an accident		The chin guard air vent can be removed without any need for tools and can be replaced by a off-road grille.
	The visor is fitted with a patented swivel mechanism which provides a perfect seal with the shell of the helmet.		The chin guard air vent support is internally strengthened to prevent the intrusion of materials.
	The visor comes with a patented dual purpose locking system which reduces the risk of accidental opening in the event of an accident.		Protective shock-absorbing system on the chin guard.
	A separate kit includes a racing version visor with additional screws which further reduce the risk of accidental opening in the event of an accident.		Integrated spoiler.
	The internal components can be customised to match the shape of the rider's head.		Ready for use with goggles.
	The internal shape of the helmet was specifically designed to decrease the risk damage to the collar bones in the event of a fall.		Easily washed thanks to removable inner components and plastic upper parts.
	The shape of the helmet was designed to blend with the hump on the rider's racing suit and maximize aerodynamics.		Metal release mechanism on the chin guard for improved reliability.
	The shape of the helmet was designed to blend with the hump on the rider's racing suit and maximize aerodynamics.		When closed, the lines resemble those of a full-face helmet.
	The shape of the helmet was designed to blend with the hump on the rider's racing suit and maximize aerodynamics.		Adjustable peak.
	Patented XQRS (Extra Quick Release System) visor mechanism in metal for very fast tool-free removal.		The air vent grille is made of anti-intrusion stainless steel and guarantees maximum resistance.
	New Sun Visor Control mechanism to lower the sun visor.		New closing Visor Magnetic System (VMS).
	The visor is fitted with a patented micro-opening system		Patented Safety Release system to remove conveniently cheek pads in case of accident
	The long and wide visor covers and protects the face to below the level of the chin.		

ICONS

INFO

TOP

- Helmets with the vary same graphics that Valentino Rossi is using or used when racing on the MotoGP™ competitions or graphics developed with VR46 design department.

REPLICA

- Helmets with the very same graphics that the AGV riders are using or used when racing in different competitions.

MULTI

- Helmets with multicolour graphics

MONO

- Helmets with a monochrome base.

NOTES

During printing process slight deviations in colors and graphics may occur so that some of the products shown in this catalog may differ from the original ones. Dainese S.p.A. cannot be considered responsible for such discrepancies. Dainese S.p.A. reserves the right to change or alter the products shown. The images of the products shown in the catalog are purely indicative and do not bind Dainese S.p.A. to supply the client with a product that is identical to such images. In particular, all "AGV" brand helmets sold by Dainese S.p.A. are provided only with transparent visors. Tinted visors, which can be ordered as accessories and subsequently installed by users, are only intended for competitions and private race tracks and therefore must never be used for any reason on public roads or in public traffic circulation.
